# VERDUGO MOUNTAINS 10K

As the fellow Key Clubbers woke up early, they all headed off to Brand Park to partake in the Verdugo Mountains 10k Run. We gathered around the signup location as we were given 2 separate tickets for our beverages as well as lovely breakfast provided by our Kiwanians. After we were done with our meals, volunteers separated into different stations such as setting up for the awards

down. As time went by, more participants passed the finish line and we started to quickly distribute the waters. It was nice to see the smiles of the runners and hear them say "Thank you." Most of the water bottles were gone by the end of the run. Once the event was done, we took the shuttle back to the start where the awards ceremony occurred and new track

ceremony and distributing water at the finish line. Once we arrived to the finish line after a very long hike from the start line, packs of water were taken out of a pickup truck and placed onto a table close to the finish line. The volunteers got into a line with water bottles in their hands and we all waited for the runners to come

records were set. The other half of our volunteers were helping the Kiwanis with the food, recording a runner's number and then letting them enjoy their well deserved meals. We're exciting to see if new records will be set and if many more runners do partake in the Verdugo 10k Run next year!

# SALVATION ARMY

# FOOD DRIVE

There were only small stacks of bags and food on the ground when we first entered the back parking lot of the Glendale Post Office at 3 PM. Post office trucks had begun unloading donations into carts, and volunteers had to take them out of the carts, place them onto the ground, and organize them in boxes. There was so much variety of pasta, soups, sauces, etc. There was also an

incredible influx of cans—for every box of cans we filled, there were another 5 bags being brought in! Before we knew it, stacks turned into heaps and heaps turned into one huge mountain of donations! Although it was tiring to go through that extensive process, we came to understand the care and thoughtfulness of our community who worked together to make it possible to “feed about 70,000 families every month,” according to a Salvation Army staff!

# JEWEL CITY RIDE

In the hottest event of May, we headed towards YMCA in Glendale to help out with the Jewel City Ride at 6:30 in the morning. Welcomed with free donuts and coffee, we started off with setting up tables and chairs for booths and holding parking signs to guide bikers to parking spaces. We then moved onto handing out medals for those who completed the hour long rides. After watching a karate performance, we were given a free lunch from the Habit truck! The place was packed with food trucks and booths! We had fun jumping in the bounce house and competing against each other in rock climbing. We're grateful for the kindness and patience the staff gave us. I hope next year more members will participate and have fun as much as we did!
